Junior Guest: A Junior Guest is a Guest who is between the ages of 5 & 18.

Risk Liability Waivers for Junior Guests must be signed by the Junior Guest's parent or guardian. (See Annex E1) Daily Fee: \$10.00⁵. Junior guests must provide a new waiver signed

Membership Policies:

1. Member shooters must:

a) Have executed a current Range Use Agreement and paid the appropriate membership fee for the current calendar year, and;

b) Conform to all policies described in this Agreement, and obey all Range Use & Firearms Safety Rules as described in **Annex C & D**, which are attached hereto and incorporated herein by reference for all purposes, and;

c) Before entering the actual firing ranges, sign **Annex E**, the Range Risk Waiver Agreement, which is attached hereto and incorporated herein by reference for all purposes.

2. Membership Renewal

a) Range membership is a privilege and not a right. To retain membership from year to year, members must remain in good standing. Members in good standing are defined as those who consistently follow range rules & regulations and as a result do not require intervention, explanation, mediation, or "maintenance" by range management. Examples evidencing "high maintenance" members include, but are not limited to, disciplinary actions, conflicts with other members, incidents requiring range management intervention, or other such conduct.

b) All members must renew their membership annually. Renewal notification and packets will be emailed to members in good standing on or about November 1st every year. To renew your membership you must complete & sign a new Risk Liability waiver, a Membership Renewal Form and a copy of the 2018 Range Rules (Annex C). Your signature acknowledges that all portions of the 2018 Range Agreement & ALL Annexes have been read & understood.

2560 FM 972, Georgetown, Texas 78626
www.TexasFiringLine.com

The new forms must be submitted with the annual fee to our office. Members renewing a current membership do not have to satisfy any training requirements.

c) Memberships expire on December 31st of every calendar year. You should plan on submitting your renewal paperwork in November. This will ensure that your renewal is accomplished before the end of the year and that you have the new Range gate code and a current Range Badge. Members who renew before December 31 will not have their use

of the Range interrupted. On January 1, members who have not renewed their membership will not be able to open the gate with the old combination and will be denied entry to the range.

d) If your membership has lapsed for more than 3 months (i.e. not renewed by midnight on March 31st), then you will be considered a new member and must attend a Range Orientation class and execute a Membership Packet before you can access the range. It will not be considered a renewal. This is important so that you can have a refresher for our range and safety rules.

e) There is no 'penalty' for late membership renewal other than denied access to the range until the renewal is turned in. However, WE DO NOT PRORATE DUES FOR LATE RENEWALS. Completion of all renewal requirements will ensure that we always have current contact information for members and that members have the latest rules and policies.

3. Range Hours:

a) Normal Range hours – The Range is open and available to members every day, beginning at 8:00 am and ending at sunset⁴.

b) Instructor members may schedule tactical bays for use every day between the hours of 8:00 am and sundown⁵. Bays may periodically be scheduled between sundown & 10pm with prior approval.

Step 5: Complete the Range Orientation class which consists of a walk-through and introduction to the Range with a Firing Line RSO and complete the Firearms Proficiency Demonstration. These evaluations are conducted by a qualified Firing Line Range Safety Officer (RSO). The Safety Evaluation for prospective members includes a demonstration of your knowledge of Range use policies and a live fire proficiency demonstration of your safe gun handling skills. The evaluation is held on the range with a handgun or rifle of your choice. You should bring a personally owned firearm, 5 rounds of ammunition, a target and a staple gun, thumb tacks or other target fasteners. The entire process takes approximately one hour. If your initial assessment is found to be unacceptable, we will provide you with a list of Firing Line approved instructors who you may contact to receive additional training if you desire. You may request a refund of your application fee or re-take the assessment at a later date.

Copies of these forms can be downloaded from our website. Copies MAY also be available at the Range in the water proof container placed there for that purpose. Waivers may be copied as needed.

ANNEX C – Range Rules 2018

1. **SAFETY FIRST!** Every shooter has the personal responsibility to make sure that each bullet fired impacts safely in a backstop or berm. Every Member has a DUTY to prevent and report rules violations and unsafe acts to Range management.
2. Range hours are from **8:00 am until sunset**, 7 days a week. All shooting must cease at sunset. Note: Sunset does not mean “too dark to see”. Shooters who intend to shoot in the late afternoon are advised to check the Range website for actual Sunset times.
3. Access to the Range is gained through the main gate. Members must use the main gate and park in the designated parking Area (See Annex A, Site Map). Members may drive to the ranges to unload equipment and may park at a Tactical Bay which they plan to use. Vehicles must not block the Range Road. The main gate must remain locked while using the range. All members are responsible for maintaining the security of the gate at all times. The only exception to this rule is when there is a brightly colored tag hanging on the gate post notifying members to leave the gate open. These are used by Instructor members who are expecting a class. Whenever an Instructor Tag is present on the gate post, do not close the gate.
4. At no time should the gate be left unlocked while the property is unattended. The last member to leave the range at any time should secure and lock the gate.
5. Members should remember that the range entry road is shared with our neighbors and excess speeds raise a lot of dust and could endanger local children and pets living near the road.
6. **All members must sign in** upon entering the range and enter the date, time, member number, names of all guests and license number of your vehicle. It is not necessary to sign out. Instructor Members with scheduled classes must sign themselves in & note the number of students in the guest blank.
7. Eye and Ear Protection: Eye protection must be worn at all times on Range property, and hearing protection must be worn within 50 feet of an active (hot) firing line. (Hearing aids are NOT adequate hearing protection.)
8. Tobacco use is allowed on Firing Line Ranges. Members may use tobacco products in the Parking area and on the ranges, but not on the actual firing line. Members must discard tobacco products into approved containers only. **Anyone discarding cigar or cigarette butts on the ground will be asked to leave the range.** In the event that Williamson County issues a **burn ban, smoking will be prohibited** on the Range property and notice will be posted on the Range web site.

2560 FM 972, Georgetown, Texas 78626
www.TexasFiringLine.com

9. **All trash must be removed from the range.** This includes ammunition cartons and used targets. Paper targets must be removed from target stands. All target debris must be removed from the range. This includes the remnants of balloons, or other frangible materials. NOTE: **Empty shotgun shells (hulls) ARE considered trash and must be picked up by the shooter.** The ONLY exception to this rule is for the remnants of authorized clay targets.
10. Members may (but are NOT required to) recover their own fired cartridge cases (brass) and that of their guests, however, Members **MAY NOT** scavenge or harvest discarded brass from the ranges.
11. **Firing Line Range Safety Officers (RSO's) have complete authority over both shooters and spectators on all ranges.**
12. **Before anyone goes forward of the firing line, all firearms shall be made safe,** firearm actions must be open and the firearm completely unloaded. All firearms must be grounded, tabled, racked, cased or holstered. **FIREARMS SHALL NOT BE HANDLED when anyone is forward of the firing line.** This rule may be superseded at the discretion of the RSO supervising that range.
13. All shooting shall be properly aimed, using a sight picture. There shall be no instinct or hip shooting. A pistol may be drawn from a holster and moved into a position where the sights can be properly aimed and fired. Controlled rapid fire is allowed and is defined as the rate a shooter can fire a firearm while correctly aligning the sights between each shot. This rule strongly supports rule #1.
14. Full auto fire is allowed on the Range, but must be controlled at all times. Sights must be aligned and all rounds must impact the berm. **Full auto fire may only be used at distances of 25 yards or less from the impact area of a berm.** This rule applies to all full auto firearms, including select fire, burst fire, bump fire and other full auto assist or simulation devices.
15. **There shall be no use of intoxicants of any kind on Range property before or during shooting.**
16. Use of The Firing Line facilities is limited to members and invited guests. Anyone on the property is subject to all Rules of the Range.
17. ***Each member shall display his or her Membership Badge while on the range.***
18. **Guests whether shooting or not, MUST complete and sign a Liability Waiver for each visit to the range.**

2560 FM 972, Georgetown, Texas 78626

20. Children under 18 are not allowed on the Range premises unless they are under the direct supervision of a Full Member who shall be responsible for them and keep them behind the firing line and out of danger zones.
21. Anyone causing any damage to Range equipment or facilities shall be personally and monetarily liable for such damage. The host Member is liable for damage caused by a guest.

27. Incendiary devices and/or tracer ammunition may be used on Range property only with prior approval of Range management.
28. **Target stands must be placed within three (3) feet of the base of a berm. Targets may NOT be placed on the berms, in the range lanes between the firing line and the target area or on the ground anywhere. Shooters wishing to shoot shorter distances must establish and maintain a firing line closer to the targets, do not move the targets away from the berms. Please Note: Violation of this rule is considered a safety hazard and therefore will be treated as a MAJOR violation in accordance with the Range Use Agreement, paragraph 7.**
29. Members wishing to "sight-in" rifles are required to begin at **25 yards** (see rule 28 above). Shooters must establish a "zero" by firing a minimum of one (1), 3-shot group that impacts the target at a range of 25 yards. This is designed to insure that follow-on shots at greater distances will impact berms.

30. Targets must be paper or cardboard and placed on appropriate backers and stands. **Glass bottles, aluminum cans and other such items may not be used as targets.** Water filled plastic jugs may be used if placed on a table or other stand. **Targets may not be placed directly on the ground in any case.** ALL target debris (Jugs, Cardboard, etc) MUST BE REMOVED from the range.
31. **Juicy fruit, such as pumpkins, watermelons, cantaloupe, etc, MAY NOT be used as targets at any time as the residue draws fire ants, flies & bees.**
32. **All rounds fired must impact into the topsoil or sand areas of the berms. Shooters may not fire into limestone/caliche areas of the side berms.** Shooters may not climb on, dig in, or otherwise disturb the berms. Members are responsible to keep guests and children off of the berms.
33. Tannerite or other such BATFE exploding targets have the potential to damage the berms, and therefore may NOT be used on the Range in any amount without prior approval of range management. If approved, such targets must be positioned not less than forty (40) yards from the actual firing line.
34. Personally owned steel targets¹³ may be used only with prior approval of Range owners, and must be at least 24 inches above the ground and be constructed with a 20° angle of incidence to the ground. **Steel targets may only be used in Tac Bay C, and shall be shot at a distance of 40 meters or more for rifles and 7 meters or more for handguns** unless using frangible ammunition. NOTE: Range owned steel targets may not be moved to, or used in any other bay.
35. **Target residue of any type must be picked up and removed from the range at the conclusion of shooting activities.**
36. Range property of any type shall not be removed from the range. This specifically includes, but is not limited to, the white plastic tables located in the LTC bay (Bay A). Additionally, these tables should NOT be moved out of that Bay to any other location on the range. All other tables and chairs should remain behind the firing line and should NOT be used as targets or to hold or prop targets.
37. All Members are herewith notified that the fence surrounding the range, along the road and the parking area is electrified. Members should avoid contact with it at all times. In the event that the cattle contained inside the electric fence should inadvertently enter the range, members are asked, but not required, to contact range management to expedite their return to their designated pasturage.

¹³ Steel targets are restricted to those manufactured for that purpose and does not include scrap metal or other improvised metal targets.

 - e. If helicopter evacuation becomes necessary, use the field west of the 100 yd. range as a Landing Zone area.
 - f. Fill out and submit an Incident report.
39. In the absence of a Firing Line RSO, **shooters are responsible for cooperating to run a safe and efficient range and to obey and enforce all published Range Rules.**
