this agreement and treated accordingly (See paragraph 9). Note: formal instruction does not include demonstrating firearms use & safety to friends & family.

Full Members are responsible for their Guests at all times and must ensure their compliance with all Range and Firearms Safety Rules as detailed in **Annexes C & D**. (See specifically Annex C, rule 16).

Junior Guest: A Junior Guest is a Guest who is between the ages of 5 & 18. Risk Liability Waivers for Junior Guests must be completed and signed by the Junior Guest's parent or guardian. Daily Fee: $15.00[5]. Junior guests must provide a new waiver, completed and signed by their parent or guardian for each visit. NOTE: Junior Guests must be 8 years of age or older to shoot. Junior Guests 5-7 years of age must be NON-SHOOTING. Full Members must sign in Junior Guests (**Annex G**), be responsible for their Junior Guests at all times and must ensure their compliance with all Range and Firearms Safety Rules as detailed in **Annexes C & D**. (See specifically Annex C, rules 19 & 20).

Membership Policies:

1. Member shooters must:

a) Have executed a current Range Use Agreement and paid the appropriate membership fee for the current calendar year, and;

b) Conform to all policies described in this Agreement, and obey all Range Use & Firearms Safety Rules as described in **Annex C & D,** which are attached hereto and incorporated herein by reference for all purposes, and;

c) Before entering the actual firing ranges, complete and sign **Annex E,** the Range Risk Waiver Agreement, and **Annex G,** the Range Sign-In Sheet, both of which are attached hereto and incorporated herein by reference for all purposes.

2. Membership Renewal

a) Range membership is a privilege and not a right. To retain membership from year to year, members must remain in good standing. Members in good standing are defined as those who consistently follow range rules & regulations and as a result do not require intervention, explanation, mediation, or "maintenance" by range management. Examples evidencing "high maintenance" members include, but are not limited to, disciplinary actions, conflicts with other members, incidents requiring range management intervention, or other such conduct.

b) All members must renew their membership annually. Renewal notification and packets will be emailed to members in good standing on or about November 30th every year. To renew your membership, you must complete & sign a new Risk Liability waiver, a Membership Renewal Form and a copy of the following year's Range Rules (**Annex C**). Your signature acknowledges that all portions of the following year's Range Agreement & ALL Annexes have been read & understood. The new forms must be submitted with the annual fee to our office. Members renewing a current membership do not have to satisfy any training requirements.

c) Memberships expire on December 31st of every calendar year. You should plan on submitting your renewal paperwork at your earliest opportunity. This will ensure that your renewal is accomplished before the end of the year and that you have the new Range gate code and a current Range Badge. Members who renew before December 31 will not have their use of the Range interrupted. On January 1, members who have not renewed their membership will not be able to open the gate with the old combination and will be denied entry to the Range.

d) If your membership has lapsed (i.e. not renewed by the renewal deadline date published on the renewal invitation documents), then you will be considered a new member and must attend a Range Orientation class and execute a Membership Packet before you can access the Range. It will not be considered a renewal. This is important so that you can have a refresher for our range and safety rules if your membership lapses.

e) There is no 'penalty' for late membership renewal other than being denied access to the Range until the renewal is turned in. Early renewals (i.e. renewals submitted NLT 31 December of the expiring year) MAY receive a discount. However, in any event, WE DO NOT PRORATE DUES FOR LATE RENEWALS. Completion of all renewal requirements will ensure that we always have current contact information for members and that members have the latest rules and policies.

3. Range Hours:

a) Normal Range hours – The Range is open and available to members every day, beginning at 8:00 am and ending at sunset[9].

b) Guns Plus Instructors may schedule ranges for use every day between the hours of 8:00 am and sunset[10].

9. VIOLATIONS OF THIS AGREEMENT OR THE ANNEXES THERETO.

a) Violations are classified in two categories:

i) Major violation – a violation of Range rules or Firearms Safety Rules or Range Policies that has or could have the potential of causing injury or loss of life.

b) Any violation, observed by Firing Line RSO's, will be immediately brought to the attention of the Member committing the violation.

c) Any Member advised of a violation will immediately cease and desist the identified action(s).

d) Major violations will result Member's Range privileges being immediately revoked for the remainder of that day and the Member will be asked to leave the Range. Members accused of committing a major violation will be notified that their Range privileges may be revoked for the remainder of that year, and given 24 hours to respond & show cause why their privileges should not be revoked. Revocation of Range privileges may be considered grounds for non-renewal of Range membership. ANNEX B – MEMBERSHIP PROCEDURES 2026

Step 1: Obtain a membership packet. This includes the Application for Membership, together with the Membership Range Use Agreement and all Annexes. This can be found under the Downloads tab of our website.

Step 2: **READ ALL DOCUMENTS[12].** Complete the application, initial and sign the Agreement and Annexes where appropriate.[13]

Step 3: Make a copy of all documents if you desire one, and return the original application and all other required documents along with the appropriate fee to our office at Guns Plus, 2316 N. Austin Ave, Georgetown, Texas 78626[14]. Please note: Payment must be cash or check. No credit/debit cards accepted.

Step 4: After docs are executed and fee is paid, you will be advised where to email your request to schedule a Range Orientation and Firearms Proficiency Demonstration.

Step 5: Complete the Range Orientation class which consists of a walk-through and introduction to the Range with a Firing Line RSO and complete the Firearms Proficiency Demonstration. These evaluations are conducted by a qualified Firing Line Range Safety Officer (RSO). The Safety Evaluation for prospective members includes a demonstration of your knowledge of Range use policies and a live fire proficiency demonstration of your safe gun handling skills. The evaluation is held on the range with a handgun or rifle of your choice. You should bring a personally owned firearm and 5 rounds of ammunition. The entire process takes between one and one and a half hours. Prospective members must know and understand all Range Use Rules (**Annex C**) and Firearms Safety Rules (**Annex D**) and demonstrate that they can handle firearms and use the range safely by themselves and in the presence of others. If your initial assessment is found to be unacceptable, we will provide you with a list of Firing Line approved instructors you may contact to receive additional training if you desire. You may request a refund of your application fee or re-take the assessment at a later date.

Step 6: After successful completion of the Range Orientation and Firearms Proficiency Demonstration, you will be given a range badge and the gate code.

Step 7: Enjoy the Range. **NOTE:** Remember to complete the Sign-In Sheet (**Annex G**) before entering the Range. Members and guests MUST sign in before entering bay area each visit.[15]

[12] If it is apparent that materials were signed without being read Membership will be denied.
[13] Note: Material misrepresentations are grounds for denial or revocation of membership.
[14] Our offices are co-located with Guns Plus at 2316 N. Austin Ave, Georgetown, Texas 78626.
[15] Provide all info requested. Guests must be signed in before entry into the bay areas. Full name on the sign in sheet needs to match the name on the waiver. All guests must be listed on the sign in sheet. If the guest is in a separate vehicle, their vehicle ID must also be listed on the sign in sheet.

Guest Member Procedure

Members who bring guests are required to have them complete and sign a liability waiver form each and every visit, **prior to using the range** and to sign them in on the Range Sign-In Sheet (**Annex G**). Copies of waivers should be down-loaded and printed from our website. Copies MAY also be available at the Range in the water proof container placed there for that purpose. These waivers are provided as a courtesy for Member's use if they have forgotten to bring a waiver. Members are advised to plan ahead and not rely on the availability of forms at the range, as there is no way to assure that other members have not used the available supply. Members should never assume waivers will be available at the range. In the event that a Member forgets to bring a waiver and none are available (having been used by other Members) the Guest MAY NOT enter the range. Waivers may be copied as needed.

When bringing a guest to the range be sure to:

1) Have your guest complete and sign a Risk Liability Waiver. Turn in that document along with the range fee and place both the waiver and fee together in the lock box at the range BEFORE entering the shooting areas. NOTE: Range fees may NOT be paid at Guns Plus, they MUST be placed in the lock box at the range.

2) Remember that junior guest members must have their forms completed and signed for them by their parent or guardian on each visit, therefore, members are advised to plan accordingly.

3) Remember that you are responsible for all actions of your guests and must assure that they adhere to all rules and policies.

4) Keep your guest with you at all times. Guests may not use a different range from their sponsor or wander around unsupervised.

5) NOTE: Failure to properly follow this procedure including failure to complete all documents is grounds for suspension of guest privileges and could result in suspension of membership privileges.

ANNEX C – Range Rules 2027

1. **SAFETY FIRST!** Every shooter has the personal responsibility to make sure that each bullet fired impacts safely in a backstop or berm. Every Member has a DUTY to prevent and report rule violations and unsafe acts to Range management.
2. Range hours are from **8:00 am until sunset**, 7 days a week. All shooting must cease at sunset. Note: Sunset does not mean "too dark to see". Shooters who intend to shoot in the late afternoon are advised to check the Range website for actual Sunset times.
3. Access to the Range is gained through the main gate. Members must use the main gate and park in the designated parking Areas (See **Annex A**, Site Map). Vehicles must not block the Range Road. The main gate must remain locked while using the range. All members are responsible for maintaining the security of the gate at all times. The only exception to this rule is when there is a brightly colored tag hanging on the gate post notifying members to leave the gate open. These are used by Guns Plus staff & Instructors who are expecting a group. Whenever an Instructor Tag is present on the gate post, do not close the gate.

   Members MAY drive to the ranges to unload equipment and MAY park in the Tactical Bays or the range that they are using IF THE GROUND IS DRY. Members may NOT drive to or park in Tactical Bays or ranges when the ground is wet. This is usually anytime within two (2) days following rain in the summer and seven (7) days following rain in the winter. Leaving ruts is a positive indication that the ground is too wet to support a vehicle. Members are advised to walk the road and intended Bay BEFORE driving on it if there has been any rain in the previous week. Members should be aware that their vehicle is considerably heavier than they are. This is especially true in the CHL/LTC Bay which is composed of rock on top of a clay base. Driving in this Bay after a rain will drive the rock down into the clay and render the Bay unusable. Leaving ruts on the Range Road or in any Bay or range will be considered a violation of the Range Use Agreement and will be dealt with accordingly. NOTE: The presence of Blue Barrels blocking the Range Road is a positive indication that the road or Bay is too wet to use. Members may not move or drive around such barrels.

   Visitors & guests must always park in one of the two designated parking areas.
4. At no time should the gate be left unlocked while the property is unattended. The last member to leave the range at any time should secure and lock the gate.
5. Members should remember that the range entry road is shared with our neighbors and excess speeds raise a lot of dust and could endanger local children and pets living near the road.
6. **All members must sign in** upon entering the range and enter the date, time, member number, names of all guests[16] and license number of ALL vehicles in your group (See **Annex G**). It is not necessary to sign out.
7. Eye and Ear Protection: Eye protection must be worn at all times on Range property, and hearing protection must be worn within 50 feet of an active (hot) firing line. (Hearing aids are NOT adequate hearing protection.)

[16] No more than three (3) guests (shooting or observing) per Full Member are permitted on Range property at any one time

Initial

8. Tobacco use is allowed on Firing Line Ranges. Members may use tobacco products in the Parking area and on the ranges, but not on the actual firing line. Members must discard tobacco products into approved containers only. **Anyone discarding cigar or cigarette butts on the ground will be asked to leave the range.** In the event that Williamson County issues a **burn ban, smoking will be prohibited** on the Range property and notice will be posted on the Range bulletin board.
9. **All trash must be removed from the range.** This includes ammunition cartons and used targets. Paper & cardboard targets must be removed from target stands. All target debris must be removed from the range. This includes the remnants of balloons, or other frangible materials. NOTE: **Empty shotgun shells (hulls) ARE considered trash and must be picked up by the shooter**. The ONLY exception to this rule is for the remnants of authorized clay targets.
10. Members may (but are NOT required to) recover their own fired cartridge cases (brass) and that of their guests, however, Members **MAY NOT** scavenge or harvest discarded brass from the ranges.
11. **Firing Line Range Safety Officers (RSO's) have complete authority over both shooters and spectators on all ranges.**
12. **Before anyone goes forward of the firing line, all firearms shall be made safe,** firearm actions must be open and the firearm completely unloaded. All firearms must be grounded, tabled, racked, cased or holstered. **FIREARMS SHALL NOT BE HANDLED when anyone is forward of the firing line**. This rule may be superseded at the discretion of the RSO supervising that range.
13. All shooting shall be properly aimed, using a sight picture. There shall be no instinct or hip shooting. A pistol may be drawn from a holster and moved into a position where the sights can be properly aligned and fired. Controlled rapid fire is allowed and is defined as the rate a shooter can fire a firearm while correctly aligning the sights between each shot. This rule strongly supports rule #1.
14. Full auto fire is allowed on the Range, but must be controlled at all times. Sights must be aligned and all rounds must impact the berm. **Full auto fire may only be used at distances of 25 yards or less from the impact area of a berm**. This rule applies to all full auto firearms, including select fire, burst fire, and other full auto assist or simulation devices including but not limited to Bump Stocks and Forced Reset Triggers.
15. **There shall be no use of intoxicants of any kind on Range property before or during shooting.**
16. Use of The Firing Line facilities is limited to members and invited guests. Anyone on the property is subject to all Rules of the Range. NOTE: No more than three (3) guests (shooting or observing) per Full Member are permitted on Range property at any one time.
17. ***All Full Members shall display his or her Membership I.D. Badge at all times while on the range.***

_____
Initial

18. **Guests whether shooting or observing, MUST fully complete and sign a Liability Waiver for each visit to the range**. Waivers must be completed and signed and placed, together with guest fee[17], in the locking mailbox, which is attached to the range bulletin board, **PRIOR** to entering the range bays.
19. Members under the age of 18 (Associates or Juniors) and guests of any age may fire on the range only when under the direct supervision of a Full member. No more than three adult guests, or more than three Juniors (8-18) may be shooting at any one time under the supervision of one adult Full member. Children under 8 may not shoot on the range at any time. **Children under the age of 5 are not permitted access to the range property.**
20. Children under 18 are not allowed on the Range premises unless they are under the direct supervision of a Full Member who shall be responsible for them and keep them behind the firing line and out of danger zones.
21. Anyone causing any damage to Range equipment or facilities shall be personally and monetarily liable for such damage. The host Member is liable for damage caused by a guest. Additionally, intentional or grossly negligent damage to range property, (i.e. using range tables as target stands) may result in suspension of membership privileges.
22. The Range shall not be responsible for personal property or equipment left on the Range property.
23. Weapons firing .50 caliber BMG rounds are not allowed to be fired on the range.
24. Armor piercing ammunition should not be fired at steel targets.
25. **Shotguns may be not be fired at targets placed on Range owned wooden stands or in the LTC/CHL bay at any time.** Shooters wishing to shoot shotguns must provide their own target stands.
26. Fireworks may not be exploded, ignited, burned or otherwise used at the range.
27. Incendiary devices and/or tracer ammunition (including Dragon's Breath) may be used on Range property ONLY with prior approval of Range management.
28. **Target stands must be placed within three (3) feet of the base of a berm. Targets may NOT be placed on the berms, in the range lanes between the firing line and the target area.[18] Targets cannot be angled, but rather must be placed parallel to berms. <u>NO TARGETS MAY BE PLACED DIRECTLY ON THE GROUND ANYWHERE</u>. Shooters wishing to shoot shorter distances must establish and maintain a firing line closer to the targets, do not move the targets away from the berms. Please Note: Violation of this rule is considered a safety hazard and therefore will be treated as a MAJOR violation in accordance with the Range Use Agreement, paragraph 9.**

Initial

not be placed on Range tables or directly on the ground in any case. **ALL** target debris (Jugs, Cardboard, etc) MUST BE REMOVED from the range.[19]

30. Clay Skeet/Trap targets (commonly called clay pigeons) may be used in all Tac Bays except the CHL/LTC Bay. Clay targets may be tossed onto the designated shooting berms, between target stands and behind the target stand line approximately waist high from the base of the berm and in no case higher than the shooter's chest. Targets must be tossed from in front of the target stands, and in no case may shooters climb unto the berms to place or remove the targets. Clay targets may only be engaged after they have come to rest on the berm and in no case may be engaged while moving or in the air. Clay target debris should be left on the berm.

31. Members wishing to "sight-in" rifles are required to begin at **25 yards** (see rule 28 above). Shooters must establish a "zero" by firing a minimum of one (1), 3-shot group that impacts the target at a range of 25 yards or closer. This is designed to ensure that follow-on shots at greater distances will impact berms.

32. Juicy fruit, such as pumpkins, watermelons, cantaloupe, etc, MAY NOT be used as targets at any time as the residue draws fire ants, flies & bees.

33. All rounds fired must impact into the topsoil or sand areas of the berms. Shooters may not fire into limestone/caliche areas of the side berms. Shooters may not climb on, dig in, or otherwise disturb the berms. Members are responsible to keep guests and children off of the berms. Rock, regardless of size, should not be moved or relocated.

34. Tannerite or other such BATFE exploding targets have the potential to damage the berms, and therefore may NOT be used on the Range in any amount without prior approval of range management. If approved, such targets must be positioned not less than forty (40) yards from the actual firing line.

35. Personally owned steel targets[20] may be used only with prior approval of Range owners. All such targets must be inspected and bear a "Firing Line Approved" sticker on the rear of the target. Prior to arranging for an inspection, shooters should ensure that the target is of the following type:

    a.) Targets must be "Fixed", i.e. no chains or swivels and incapable of swinging, moving or turning;
    b.) Targets must be "constructed" with a 22º angle of incidence to the ground, i.e. the 22º angle must be built in; no propping tilting, swinging, or moving;
    c.) Targets must be positioned at least 24 inches above the ground.

36. Steel targets may normally only be used on Ranges C, D, E, F & G on the west berm only. All steel targets shall be shot at a distance of 40 meters or more for rifles and 7 meters or more for handguns unless using frangible ammunition.

[19] NOTE: The one exception to this Rule is the use of Clay Targets. See Rule 30.
[20] Steel targets are restricted to those manufactured for that purpose and does not include scrap metal or other improvised metal targets.

37. Target residue of any type must be picked up and removed from the range at the conclusion of shooting activities.
38. Range property of any type shall not be removed from the range. This specifically includes, but is not limited to, the white plastic tables located on the CHL/ LTC range. Additionally, these tables should NOT be moved out of that Bay to any other location on the range. All other tables and chairs should remain behind the firing line and should NOT be used as targets or to hold or prop targets.
39. All Members are herewith notified that the fence surrounding the range, along the road and the parking area is electrified. Members should avoid contact with it at all times. In the event that the cattle contained inside the electric fence should inadvertently enter the range, members are asked, but not required, to contact range management to expedite their return to their designated pasturage.
40. No firing from a prone position on the ground is permitted at any time.

    a. Immediately call cease fire on the range. Ensure that all firearms are unloaded and clear.
    b. If qualified to do so, render first aid.

    d. If possible, send someone to FM 972 to wave down emergency vehicles and point them to the location.
    e. If helicopter evacuation becomes necessary, use the field west of the 100 yd. range as a Landing Zone area.
    f. Fill out and submit an Incident report.
42. In the absence of a Firing Line RSO, **shooters are responsible for cooperating to run a safe and efficient range and to obey and enforce all published Range Rules.**
43. These Rules may be changed or modified by Range Management at any time. In that event, Members will be notified by email, by posting on the Range web site, and by written notification posted on the Range bulletin board. Members are advised to check their email regularly for news, updates & changes. Changes and modifications are effective upon posting. Members who object to or disagree with changes or modifications, may withdraw from membership and their annual fees will be pro-rated and returned.
